Description/explanation

“Was the claim closed timely?”

Check “yes” or “no” based on whether the claim was closed within the time requirements outlined in OAR 436-030.

- 1.A. “Is the claim being closed after reopening for an accepted new medical condition?” Yes/No**
Check “yes” if you opened the claim under ORS 656.262(7)(c). See OAR 436-060-0010.

- 2. “Time loss” or “Temporary total disability (TTD) and temporary partial disability (TPD)”**

Report TTD and TPD dollars and days actually paid since the date of injury, regardless of prior closures. Do not include any supplemental disability dollars or days paid (resulting from additional jobs the worker held at the time of injury). Each day or part of a day for which any TTD or TPD is paid counts as one day. Self-insured employers that continue paying wages instead of paying temporary disability must report the benefits that would have been paid if they had not paid wages. Report temporary disability as a combination of weeks and days, as days only, or as weeks only.

Example: Report **either** as four weeks and two days, or as 22 days – **not both**.

“Check here if you are aware of an overpayment of time-loss benefits.”

Checking this box may explain some differences between time-loss paid and time-loss authorized. This may reduce the number of Form 873 information requests.

- 3. “Preferred worker and vocational information”**

“Job at injury” and “Job at aggravation” refer to the worker’s job at the time of the injury or aggravation **with the same employer**. If the worker returns to the same type of work but with a new employer, check “New job” or “Modified/restricted duty” (whichever is applicable) under “Return to work type.” If the worker held a second job at the time of injury and returns only to work at the second job, the “Return to work type” is “(N) New job” and “Employment type” is “(N) New employer.”

The terms “Job at injury,” “Modified/restricted duty,” and “Restricted duty” refer only to the employer at injury (where the worker was injured). These terms do not refer to a worker’s second or additional employer at the time of injury.
